

MAYUR WAGH

DevOps Engineer | AWS | Kubernetes | CI/CD | Cloud Infrastructure

+91 7385360404 | mayurwagh2001@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

DevOps Engineer with **3 years** of experience in **AWS** cloud platforms, **Kubernetes (EKS)**, **GitOps**, **CI/CD** automation, and **DevSecOps**. Proven track record of delivering zero-downtime cloud migrations of **40+ workloads**, improving deployment efficiency by **80%**, and reducing cloud costs by **30%** through automation, **Infrastructure as Code**, and optimization strategies. Experienced in building scalable, secure, and production-grade cloud infrastructure using modern DevOps practices.

PROFESSIONAL EXPERIENCE

DevOps Engineer | Experience Commerce

Jun 2025 – Present

- Led zero-downtime migration of **40+ Linux servers** and **5+ databases** from **Alibaba Cloud** to **AWS** using a phased migration strategy.
- Architected and provisioned AWS infrastructure (**EC2, VPC, EKS, IAM, ALB, WAF, Route53, ASG, S3**) using **Terraform (IaC)** across Dev, Staging, and Production environments.
- Engineered a production-grade **Amazon EKS** platform supporting microservices across Dev/UAT/Prod with **GitOps (ArgoCD)**, **Helm**, **HPA**, **RBAC**, and **Network Policies**, ensuring scalable and secure deployments.
- Implemented **GitLab CI/CD** and GitHub migration for **10+ teams**, standardizing pipelines and reducing deployment time by **50%**.
- Optimized cloud infrastructure costs by **40%** through rightsizing, database consolidation, automated shutdowns, and resource optimization.
- Implemented an observability stack using **Prometheus, Grafana, Datadog, and Zabbix** for monitoring, alerting, and performance tracking.
- Strengthened cloud security posture using **CIS Level 1 & 2** hardening, **IAM least privilege**, security group policies, and **AWS Organizations SCPs**.
- Awarded **“Rising Star of the Quarter”** for leading migration success and driving automation initiatives.

Cloud DevOps Engineer | GetToHire.com

Jun 2023 – Apr 2025

- Managed AWS production infrastructure (**EC2, VPC, IAM, S3, RDS**) supporting **10,000+ users** with **99.9% availability** using **Terraform (IaC)**.
- Built and automated **CI/CD pipelines** using **GitLab** and **Docker**, reducing deployment effort by **60%**.
- Deployed containerized applications on **Amazon ECS**, improving scalability, consistency, and deployment reliability.
- Designed highly available web architecture using **S3, CloudFront, Route53, AWS Amplify, and WAF** for static and dynamic workloads.
- Automated system administration tasks for **Linux, MySQL, and MongoDB** using **Bash and Python** scripting.
- Implemented monitoring and security controls using **Prometheus, Grafana, IAM** policies, and security group hardening.

PROJECTS

Retail Store GitOps Platform | [GitHub](#)

- Architected and deployed a microservices-based retail platform on **Amazon EKS** using **Terraform, ArgoCD, and Helm** with a **GitOps**-based deployment model.
- Built **CI/CD pipelines** using **GitHub Actions** for automated build, containerization, security scanning, and deployment workflows.
- Implemented **DevSecOps** practices using **Trivy** (container scanning) and **OWASP ZAP** (application security testing) integrated into the CI pipeline.
- Optimized CI/CD performance using **Docker layer caching**, reducing build and deployment time.
- Designed secure **Kubernetes** architecture with **Ingress, TLS automation, HPA, RBAC, and Network Policies** on **AWS EKS**.
- Implemented observability and alerting using **Prometheus and Grafana** for cluster monitoring and performance visibility.

Tech Stack: AWS EKS, Terraform, Kubernetes, ArgoCD, GitHub Actions, Docker, Prometheus, Grafana, Trivy, OWASP ZAP

TECHNICAL SKILLS

Cloud & Platform:	AWS (EC2, VPC, EKS, ECS, IAM, S3, RDS, ALB, Route53, CloudFront, WAF, ASG)
Containers & Orchestration:	Docker, Kubernetes, Amazon EKS, Amazon ECS, Helm
CI/CD & GitOps:	GitLab CI/CD, GitHub Actions, ArgoCD, GitLab Administration
Infrastructure as Code:	Terraform
Monitoring & Observability:	Prometheus, Grafana, Datadog, Zabbix, Uptime Kuma
Security & DevSecOps:	Trivy, OWASP ZAP, CIS Benchmarks, IAM, AWS SCPs, Security Groups, SSL/TLS
Scripting, Databases & OS:	Bash, Python, MySQL, MongoDB, Linux

EDUCATION

B.E. Computer Engineering, Sinhgad Institute of Technology, Pune CGPA: 8.5/10

July 2023
